

Data protection with Overland-Tandberg & Archiware

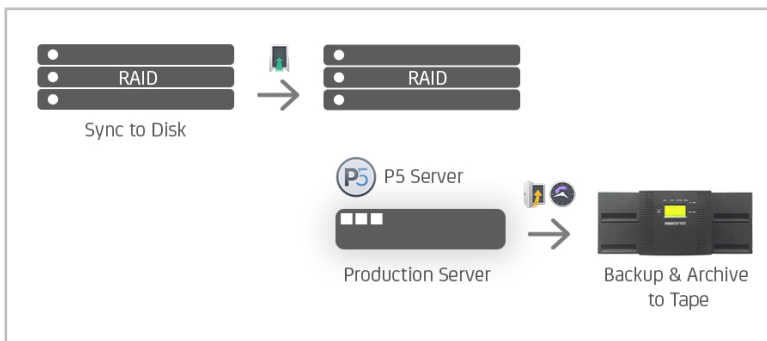

Ideal Combination – Easy Solution

Many companies discover the value of their data only after losing them. A US study shows that more than 80 % of corporations that experience major data loss have to file for bankruptcy within two years. But automated data backup is easy to achieve.

Overland-Tandberg hardware and **Archiware's P5** combined offer automatic Backup improving security while making life easier. Access and configuration via browser make it flexible and offer insight wherever you are. Archiware P5 supports all Overland-Tandberg Libraries, making it the ideal combination for saving your data. Save money by using the library for Backup and Archive in one setup.

Backup solution

Production solution

LTO-9	
Speed	up to 400 MB/s uncompressed
Capacity	18,0 TB uncompressed
Security	Servo Tracks, Verify, Error Correction, Auto Speed
Lifespan	Certified for 30 Years
Off-site storage	Simple, reliable, cost-effective

Backup Solution

10 Workstations + 4 Servers

The combination of an Overland-Tandberg NEOs or NEOxl Tape Library and Archiware P5 Studio Edition offers automated Workstation + Server Backup. Expandable Libraries leave plenty of room for growth (e.g. Overland-Tandberg NEOxl series, from 60 to 560 slots). Maximum security for your company's data is achieved by storing tapes off-site. The combination of disk and tape Backup delivers optimal workflow security.

Production Solution with Archive

Example: 1 Archiv Server + 1 LTO Tape Library

5 Servers, Disk2Disk2Tape

Fail-over + Backup + Archive combined provide a strong protection for your workflow. Cloning with Synchronize gives you an uninterrupted production. **Archiware P5** works with all major storage components. Full support of SAN is integrated and gives you maximum speed. **Archiware P5 Backup** writes to tapes that can be taken off-site to increase security. **Archiware P5 Archive** takes load off your disk storage while creating easy access to completed productions and assets. The two tape drives of the Overland-Tandberg NEOs/NEOxl double throughput for Backup and additionally allow cloning the archive for off-site storage with maximum security.
