General Notes	
<p><b>Archiware P5 Backup, P5 Archive and P5 Synchronize</b> are single products. One of them is the primary, initially purchased license, to which any further licenses are added. (Note: The latter is not applicable for the P5 Desktop LTO Edition: The P5 Desktop LTO Edition is not expandable and cannot be combined with any other P5 licenses.)</p> <p><b>1. Standard Warranty</b> Each purchased license includes the minimal legal warranty period, which begins with the date of registration of this particular license. An expansion license or add-on purchased at a later date does not extend the warranty period of any previously purchased licenses. The licensee is entitled to bug fixes in form of minor updates for the length of the warranty period.</p> <p><b>2. Archiware P5 Software Maintenance and Support</b> Each Archiware product includes 12 months of Archiware Software Maintenance after license registration without extra costs. With the initial purchase, 12 months of software maintenance can be ordered additionally (12 months free of charge and 12 chargeable months, resulting in a total maintenance period of 24 months).</p> <p><b>2.1. Scope of P5 Software Maintenance</b> The software maintenance entitles the licensee to receive all program updates for the respective licenses during the period of validity. Only the latest released version of the software can be maintained. The licensee will receive the latest released software version provided by internet download.</p> <p>Furthermore, the software maintenance entitles to receive web based technical support. An answer will be provided on principle within 24 hours during Archiware's business hours (Monday to Friday, 9:00 a.m. to 5:00 p.m. CET) via web or email. The number of support requests is not limited.</p> <p><b>2.2. Fees</b> The first year of software maintenance is free with the initial purchase, and each additional year is 15% of the license price according to the current price list. Payment is required in advance. Any licenses that are subsequently acquired on top of an existing installation will automatically be added to the software maintenance of this installation. Additionally purchased licenses will not extend this time period for the entire installation.</p>	<p><b>2.3. Renewal</b> The renewal of software maintenance can be done either automatically as part of a maintenance contract (Archiware Software Maintenance Agreement form) or by order before the end of term.</p> <p><b>a) Automatic Maintenance Renewal and Termination</b> The Archiware Software Maintenance Agreement form has to be signed and returned to Archiware within the first 12 months after software registration. Any additional licenses purchased within an existing term will automatically be subject to this Archiware Software Maintenance Agreement. The term of contract is 12 months and is automatically renewed until it is cancelled in writing by one of the contracting partners. A cancellation is possible at the latest 6 weeks prior to its yearly renewal.</p> <p><b>b) Maintenance Renewal by Order</b> To renew, an additional period of one or two years of Archiware Software Maintenance can be purchased at the end of the maintenance period. The complete software maintenance fees are due immediately. Any licenses that are subsequently acquired on top of an existing installation will automatically be added to the software maintenance of this installation. Note: Depending on the registration date, licenses that are subsequently added to an existing installation can lead to a different maintenance renewal date for the complete installation. In these cases, the maintenance period for other licenses will be prorated.</p> <p>The standard warranty granted in (1) will neither expand nor limit the term of the Archiware Software Maintenance.</p> <p><b>2.4. When maintenance is expired: Reactivation of Software Maintenance</b> For all licenses that ran out of maintenance, a reactivation of Archiware Software Maintenance is possible. Prices depend on how long the maintenance is expired:</p> <ul style="list-style-type: none"><li>a) Expiration &lt;1 year: 35% of the license price according to the current price list</li><li>b) Expiration &lt;2 years: 60% of the license price according to the current price list</li><li>c) Expiration &lt;3 years: 70% of the license price according to the current price list</li></ul> <p>The reactivated maintenance is valid for 12 months, starting on the 1st of the month following the Archiware invoice date.</p>

General Notes	
<p><b>3. Discounts</b></p> <p>Archiware offers a trade-in discount and discounts for certain target groups as well. A combination of different discount types is not possible. If several can be considered, the one most favorable for the customer applies. To claim the trade-in discount, a copy of the previous product's invoice must be immediately submitted. For all other discounts, a proof of authority (website, letterhead, etc.) is required.</p> <p><b>3.1. Trade-in Discount</b></p> <p>Target group: users of other backup and data management solutions Discount: up to 30% discount. The maximum of 30% of the price of the P5 license will be granted, but not exceeding the price of the old product. To claim the discount, a copy of the previous product's invoice must be immediately submitted. The trade-in discount is not available for software maintenance agreements.</p> <p><b>3.2. Education Discount</b></p> <p>Target group: universities, schools, colleges and all other educational institutions Discount: 20% on all P5 licenses</p> <p><b>3.3. Government Discount</b></p> <p>Target group: government, administration institutions Discount: 20% on all P5 licenses</p> <p><b>3.4. Non-profit Discount</b></p> <p>Target group: non-profit organizations such as charities, ecology groups, human rights organizations Discount: 20% on all P5 licenses</p>	<p><b>4. Conversion from one P5 Single Product/Bundle to another P5 Single Product/Bundle</b></p> <p>P5 single products and P5 bundles with valid Archiware Software Maintenance can be converted to a different P5 single product or P5 bundle. The customer will be granted 75% of the purchase price of his original P5 product towards the purchase of the new P5 product. (A refund of the difference between an old higher product price and new lower product price is not possible.) Expansion licenses and add-ons cannot be converted.</p> <p>The serial number of the old P5 single product/bundle will become the serial number of the new P5 product. The Archiware Software Maintenance will automatically be transferred to the new P5 product for the rest of the current period.</p> <p>Should the customer be employing an older version of a P5 single product/bundle, they have to buy the corresponding maintenance reactivation product prior to making the transfer to the new P5 single product/bundle. Following the maintenance reactivation, the rules given above apply.</p> <p><b>5. Reversal of Purchase</b></p> <p><b>5.1. Products (Licenses)</b></p> <p>Refunding a purchase is only possible for unregistered licenses after written consent from Archiware within 30 days from invoice date. A processing fee of 100 EUR / 140 USD / 14000 YEN will be charged (discount not applicable).</p> <p><b>5.2. Software Maintenance Agreement</b></p> <p>A cancellation of an Archiware Software Maintenance Agreement is only possible if the license key(s) for the maintenance period in question have not been requested. The reversal of purchase is only possible after written consent from Archiware within 30 days from invoice date. A processing fee of 100 EUR / 140 USD / 14000 YEN will be charged (discount not applicable).</p>

Glossary and FAQs	Archiware P5 Requirements and Compatibilities
<p><b>1. What is a P5 Media Management and Storage License?</b></p> <p>A P5 Media Management and Storage License (MMSL) is an expansion license for P5 Backup and P5 Archive (P5 Synchronize does not need MMSL). MMSL can be employed in three ways:</p> <ul style="list-style-type: none"><li>a) It can be assigned to a slot of a tape library.</li><li>b) It can be used to store up to 12TB of data on disk.</li><li>c) It can be used to store up to 12TB of data in the cloud.</li></ul> <p>Consequently, when multiple MMSL are available, these can be assigned to any number of tape libraries and used in any combination of tape slots, disk volumes and cloud storage.</p> <p>Example: The bundle P5 Archive Edition comes with 25 units of MMSL. 12 units can be assigned to a tape library and 6 units can be used to store up to 72TB of data on disks and 7 units can be used to store up to 84TB of data in the cloud. Data that has been backed up or archived to the cloud can be kept as local copy on disk. For this copy no additional MMSL are required.</p> <p><b>2. What is a P5 Media Drive License?</b></p> <p>A P5 Media Drive License is used to read from or write to a physical tape drive.</p> <p><b>3. What is the difference between a Server Agent, a Workstation Agent and a Virtual Server Agent?</b></p> <p><b>Server Agent License:</b> This license type is required for physical servers and server operating systems, including:</p> <ul style="list-style-type: none"><li>• Windows Server</li><li>• Linux, FreeBSD</li><li>• macOS when used as a server</li><li>• NAS systems: QNAP/QTS, Synology/DSM, NETGEAR/ReadyNAS, TrueNAS CORE/SCALE</li></ul> <p><b>Workstation Agent License:</b> This license type is required for a workstation operating system. Archiware P5 definition of a workstation operating system: macOS, Windows</p> <p><b>Virtual Server Agent License:</b> This license type is required for a server operating system running within a virtual machine.</p>	<p>Please visit our Archiware website to view the current requirements regarding</p> <ul style="list-style-type: none"><li>• Operation system</li><li>• Browser</li><li>• Memory and hard disk space</li></ul> <p>The website also provides current details on compatibilities in terms of supported</p> <ul style="list-style-type: none"><li>• Tape technologies, cloud services, cloud object storage classes and disk storage</li><li>• 3rd party integrations</li><li>• Interfaces</li><li>• Proprietary file systems</li><li>• Tape library vendors and hardware manufacturers</li></ul> <p><b>Archiware website:</b> <a href="http://www.archiware.com/system-requirements">www.archiware.com/system-requirements</a></p>
