

P5 Overview

ARCHIWARE

Decision

P5 Advantages	
Install & run in minutes	✓
Browser-based	✓
Simple scalability	✓
Combine with any product(s)	✓
Mac/Win/Linux/Solaris/FreeBSD	✓
Disk, Tape, Cloud & Libraries	✓

Restore Tolerance – Be without Data for: (=RTO Recovery Time Objective)		Product	Retention Time
Minutes	Data Availability/Failover, No restore necessary	P5 Synchronize	Days
Hours	Backup to Disk/Tape/Cloud (P5 Backup), Cyclical, can be offsite	P5 Backup	Weeks
Hours-Days	Long term archiving, data migration, offsite	P5 Archive	Years

Definitions
Backup = Data Duplication (overwrites when retention time reached) Archive = Data Migration (grows continuously)
Discount Types
EDU, Non-Profit & Government: 20 % discount Trade in a competitor's product: up to 30% discount
Software Maintenance
Annual maintenance option ensures software stays up to date.

Products

High Availability/Failover
P5 Synchronize

Cloned Data

- ✓ Immediate access/failover
- ✓ Versions & snapshots
- ✓ File System Events
- ✓ Xsan, metaSan, SAN

Server Backup to Disk, Tape and Cloud
P5 Backup

Nearline and Offline Backup

- ✓ Versions & snapshots
- ✓ Interruptible Backup
- ✓ User restore
- ✓ Long retention & offsite storage

Migrate Data Offline to Disk, Tape and Cloud
P5 Archive

Offsite Storage

- ✓ Previews & proxies
- ✓ Search by metadata/description
- ✓ EDL restore
- ✓ Drag-and-drop to archive and restore

P5 Archive Add-on for Future-Proof Archive
P5 Archive DLM

Automated Data Lifecycle Management

- ✓ Migrate, copy & verify data between storage tiers
- ✓ Policy-based
- ✓ Optimized storage, cost & security
- ✓ Disk, LTO & cloud

Solution

Disk2Disk2Tape – P5 Synchronize & P5 Backup

Online and Offline Backup Data

Sync2Disk

- ✓ Immediate access/failover
- ✓ Version management
- ✓ Snapshots

Backup2Tape

- ✓ Maximum Backup window
- ✓ Long retention
- ✓ Offsite storage

Licenses

Products	Functionality			Data Source		Storage Target	
Single Products	P5 Backup	P5 Synchronize	P5 Archive	Server Clients	Workstation Clients	Slots/TB	Tape Drives
P5 Backup (AWB100)	✓			1	-	-	1
P5 Synchronize (AWB800)		✓		1	-	-	-
P5 Archive (AWB200)			✓	1	-	-	1

Technologies

Supported Disk Storage	Supported Tape Storage
Direct attached storage (DAS): Disk, RAID, SSD, RDX	All tape drives and libraries, all LTO generations
Storage area network (SAN): StorNext, XSAN, MetaSAN	Supported Cloud Services
Network attached storage (NAS): Synology, QNAP, FreeNAS, Seagate	Amazon Glacier, Amazon S3, Amazon Snowfall, Alibaba, Backblaze B2, Generic S3, Google Cloud Storage, Hitachi S3, Microsoft Azure, Oracle, RSTOR, Seagate, Viking, Wasabi S3

Bundles

P5 Workgroup Edition (AWB512)	✓				4	-	25/200TB	1
P5 Sync Edition (AWB522)	✓	✓			4	-	25/200TB	1
P5 Archive Edition (AWB523)	✓			✓	4	-	25/200TB	2
P5 Professional Edition (AWB412)	✓	✓	✓	✓	5	10	50/400TB	2
P5 Enterprise Suite (AWB421)	✓	✓	✓	✓	5	10	unlimited	2

Expansion Options: Workstation Agents, Server Agents, Tape Slots (=Disk Space 12TB), Tape Drives.
