

## A reseller questionnaire for creating P5 quotes

Answer all the following questions to gather the information required to create an Archiware P5 quote.

1

Modules

### P5 Backup

Do you need backup and restore and/or disaster recovery for your live data (so that you always have a copy for restore)?

☐

Yes

### P5 Archive

Do you want to migrate/move data from live storage to the long-term archive (creating a searchable catalog and freeing up space on live storage)?

☐

Yes

### P5 Synchronize

Do you require file level replication to secondary / cloud storage for high availability/failover?

☐

Yes

2

Agents/Clients

### Servers and workstations

How many servers/workstations are **data sources** for replication, backup or archive?  
Fill in the numbers.

**Servers:** macOS, FreeBSD, Linux, NETGEAR, QNAP, Solaris, Synology, Win.

**Virtual Servers:** macOS, Windows, FreeBSD, Linux.

**Workstations:** macOS, Windows 7, 8, 10

3

Choose Target Storage

### Tape storage only for P5 Backup/Archive

**Standalone drives (tabletop):** How many drives are used by P5?

Drives

**Tape Library:** How many drives and slots are used by P5?

Drives

Slots

4

### Disk/Cloud storage only for P5 Backup/Archive

Backup and Archive can write to disk storage, cloud storage or both at the same time. In all cases the total amount of storage to be provided is needed. 100TB of storage will provide either 100TB of disk storage, 100TB of cloud storage, or 100TB of storage where data is written to both disk and cloud.

What is the maximum amount of data that needs to be backed up and/or archived? Fill in the amount.

TB

5

Expansion

### P5 Archive DLM expansion for P5 Archive

Policy-based migration/duplication/verification/analysis of archived data on cloud, tape and disk storage. Requirements: P5 Archive & the appropriate number of MMSL/Media Drive licenses for each target storage.

☐

Yes

### Creating the quote

Based on all the answers above, you should be able to find the correct P5 licenses by using the:  
**P5 Product Configurator** [www.archiware.com/product-configurator](http://www.archiware.com/product-configurator)  
or the **P5 Price List** [www.archiware.com/dealerinfo](http://www.archiware.com/dealerinfo)

For further assistance, please contact your **P5 distributor**  
[www.archiware.com/distributor-search](http://www.archiware.com/distributor-search)  
or email [team@archiware.com](mailto:team@archiware.com)
