

Archiware Celebrates 25 Years of Data Management at NAB Show

Archiware, a privately-held company with over 25 years of expertise in data management software, presents the new P5 Version 8.0 at NAB Show 2026. The latest version streamlines data protection across the archive, backup and synchronization modules. Over 30 partner integrations are showcased at Archiware's booth N1624, supporting modern media workflows with flexibility and efficiency.

Munich/Las Vegas, April 14th, 2026 – Headquartered in Munich, Germany, Archiware delivers solutions for media and entertainment workflows, enabling secure and efficient management of digital assets worldwide. At this year's NAB Show, Archiware celebrates 25 years of innovation while showcasing the new P5 Version 8.0 with enhanced capabilities for backup, archive, and synchronization. The P5 Synchronize module now enables seamless synchronization between on-premises storage and S3-compatible cloud services. P5 Archive facilitates project-based restores via EDLs, while LTO hardware encryption ensures maximum data security. Additionally, the P5 Archive DLM module provides query-based project storage monitoring, helping teams track storage usage and optimize resources over time.

At NAB Show 2026, Archiware showcases integrations with 30 industry-leading partners. Featured solutions at neighboring booths include MagStor for LTO tape libraries (N1626), axle ai for AI-driven media management (N1628), SYMPPLY for professional data storage solutions (N1630), QNAP for network attached storage (N1632), ATTO for connectivity solutions (N1636), and ELEMENTS for workflow-focused shared storage (N1640). A full list of Archiware's hardware and software partners is available in the NAB Partner Map: <https://bit.ly/nab-2026>

About Archiware

Thousands of media companies worldwide use Archiware P5 to protect their production and assets. The product line includes:

- **P5 Synchronize:** for replication of time-critical data, to ensure high availability.
- **P5 Backup:** to back up server data to disk, tape, and cloud.
- **P5 Archive:** with MAM-like features, migrating data offline to tape and cloud.
- **P5 Archive DLM:** an extension for the P5 Archive module for automated data lifecycle management of archived data between tape, disk and cloud.

All modules can be combined to create multiple-step security concepts to achieve maximum data protection. Archiware P5 secures data to disk, tape, and cloud and has integrations with numerous MAM/DAM/PAM and storage partners. Headquartered in Munich, Germany, Archiware GmbH is a privately held company with over 25 years of experience in data management software and more than 20,000 licenses sold worldwide.
