ARCHIWARE

Archiware P5 Software Maintenance & Support

Our technical support team is dedicated to provide you quality and timely service.

Free 60-day Evaluation & Installation Support

To assist you during the evaluation or installation process of Archiware P5 products, we offer a free 60-day unlimited support that begins with the evaluation or registration of the product. After the initial 60 days you can purchase regular support. The free service can only be redeemed once per installation.

Standard Support & Software Maintenance

The standard support program provides web-based software support services during standard CET business hours, along with product updates. Archiware P5 Software Maintenance entitles the customer to access to up-to-date product versions. With a valid software maintenance you can install any released version or patch version of Archiware P5 products. The first year of Standard Support & Software Maintenance is included with the product license.

Advanced Support & Software Maintenance

In addition to standard support, customers with advanced support have access to quick help with response times within 4-hours, 9am-5pm EST/PST business hours, and a direct support phone number for critical issues.
